

TRAINING COURSE

“Introducing the ICZM and MSP concepts, focusing on the possibilities for transboundary implementation”

11 May 2023

Palazzo Granafei-Nervegna

Via Duomo, 20 - Brindisi

PROGRAMME

The course aims to provide elementary concepts and skills on Integrated Coastal Zone Management (ICZM) and Maritime Spatial Planning (MSP) with an international, Mediterranean, national and local overview, while focusing on the possibilities for transboundary implementation (Italy – Albania).

The training will be based on the MedOpen platform training modules, for the online part, as well as lectures together with the in-person event.

Prior to the training course, identified participants will have a free account to access the MedOpen training course where they can learn about the concepts of ICZM and MSP. As such an average level of English or French knowledge is required.
